## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 17-36 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The double patenting rejections in the previous office action have been overcome as discussed by the applicant [pp. 1-2]. These are therefore withdrawn.

The prior art does not disclose the device of claim 32, in particular the limitations of an LCD being latchable between two stable liquid crystal configurations, having a cell wall with a first surface that provides two different pretilt angles in the same azimuthal plane, the first stable configuration being twisted. Claim 32 is therefore allowed, as are its dependent claims 33-35 and 37.

The prior art does not disclose the device of claims 17-31 and 36, in particular, for claims 17 and 36 the limitations of a bistable nematic LCD with a first surface giving bistable pretilt zenithal angles and a second surface giving monostability; claims 17 and 36 are therefore allowed, as are dependent claims 18-25. Regarding claim 26, the prior art does not disclose in particular the limitations of a bistable LCD with patterned surface profile comprising a pillar, and a first surface to provide two different pretilt zenithal angles in the same azimuthal plane, so claim 26 is allowed, as are its dependent claims 27-31.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
